Please explain why you would like to serve (attach a separate sheet if necessary):

I would like to serve on the technical advisory committee in order to help facilitate an affordable, sustainable and environmentally preferable project. The wastewater treatment plant will be very important to stop adding nitrates to the upper aquifer and to end the over draft of the water basin. A complete and objective report must be formed to assist the Board of Supervisors and to help inform the public. I have been interested in this wastewater treatment project since the Solutions Group took the project from the County. Decisions will be made based on this report and I look forward to working with County staff to solve Los Osos wastewater problems.
